The Crosstar features a range of styling to give it a totally unique personality. Designed for those who like to explore, it features body protectors, stylish roof rails, thicker tires and a higher road clearance. It also features waterproof seating to help protect the interior on those epic journeys you take.

Our ingenious Magic Seats come standard across the Jazz range. Once you have experienced Honda's innovative rear seating, it is impossible to go back to rear seats that only fold one way. They don't merely fold down, they can flip up as well, resulting in 18 possible seating configurations for transporting almost anything from bicycles, surfboards to small trees.

The Next Generation Jazz boasts a high-quality 9" touch screen display system with a customizable interface and also introduces wireless Apple CarPlay and (wired) Android Auto connectivity
